ISBN-13: 978-0538746335

Product Dimensions: 10.7 x 8.4 x 0.7 inches

Shipping Weight: 2.1 pounds

Average Customer Review: 3.8 out of 5 stars [See all reviews](#) (12 customer reviews)

Best Sellers Rank: #1,302,867 in Books (See Top 100 in Books) #57 in [Books > Computers & Technology > Programming > Languages & Tools > XHTML](#) #157 in [Books > Computers & Technology > Programming > Languages & Tools > CSS](#) #2512 in [Books > Computers & Technology > Web Development & Design > Web Design](#)

Customer Reviews

The book is a good resource for those that are looking for a step by step process on how to build a web page. The book takes you through scenarios on using different tags, modification of attributes and beautification of a web page. My recommendation would be to work through each of the scenarios to get the entire concept down though. I'm using this book as a text book for an "Intro to Web Design" class and we jump around to various sections to cover specific concepts. This book does have a good appendix at the end for quick reference.

Definitely worth the money, and really helps with beginning markup languages. I'll be keeping this book after the class, to help refresh me if I need pointers on the basics, and as I deal with requirements for jobs.

I literally only used this book for the assignments. The rest of the information I used was easier to

navigate at [...]I wouldn't have purchased it if it weren't for a class, but hey, at least it's digital, and fits on my Kindle!

I have been buying books from unilind for years, and never had problems like I did with this transaction. I got the wrong book, had to pay \$20.00 to return his book and up to today did not get back my money I paid for the book.

This book is a great help for my class and so far I have gotten A's throughout all my weeks of this course I am taking. The book has great tutorials!

This was a really easy book to follow. It was very detailed and included screen shots for each new edit you make. The only thing that could be added is a final screen shot of how the page should look on some of the end-of-chapter material. Most of it includes final screen shots, but not all of it.)
