Grade Level: 1 and up

Customer Reviews

I am completely happy with this book. I wanted a book to introduce my 4 1/2 year old to our ancestry, and this book definitely did the job. My son could not stop asking questions about the new information he learned about Ireland through this book and it also reinforced the information I had already shared with him.

I bought this book for a 4th grade teaching lesson and it is a perfect introduction to Ireland. The pictures are great and the representations and information are accurate. It's a scholastic book - well done!

Nice book (pictures).. However was easy reading for my grandson who is above average. I would suggest an age listing on books like this so if your subject is above average you would know to purchase or not.

My granddaughter used information from this book for her heritage report in school. She was in the

second grade this past year.

Great photographs and information. Good for an older child.

It was exactly what I was hoping it would be and came in a timely fashion.
