A fun and informative introduction to life in the worldâ™s oceans, packed with fascinating facts, puzzles, games, and 100 reusable stickers. Written and designed for younger readers, this book contains stickers of fish, mammals, amphibians, and invertebrates, from the great white shark to the tiny seahorse. The stickers are accompanied by fun learning pages on the behavior and habitats of the different animals, which explain what they look like, where they live, how they move, and what they eat. There are also some exciting puzzles and games, including a spot-the-difference puzzle, and readers can create their own underwater scene by adding stickers to a colorful double-page landscape spread. Perfect for kids who want to know more about the amazing array of creatures that live underwater, the book is fully checked and approved by the department of zoology at the Natural History Museum, London.

Customer Reviews

The Ocean Sticker book is a great introduction to life under the sea. I would recommend it for an individual student, rather than a single book for an entire class, because your students will all want all the stickers. Better to purchase one book for each student and use it as an adjunct to a course on ocean biology. The book has very beautiful depictions of a wide variety of sea creatures, and also includes great and detailed explanations and information as to the sea creatures' natural

habitats.

Great activity book. The kids love it!
